EXPERIENCE

YOMP, San Diego, CA— UX/UI Designer

Mobile Application Startup for College Students

MARCH 2018 - PRESENT

- Conduct user interviews and competitive analysis to develop business insights.
- Develop low-high fidelity wireframes and visual branding guidelines to hand off to back end developers.
- Work to deliver end-to-end UX/UI design process and deliverables from user flows, wireframes, and prototypes to consumer facing page layouts and designs using a variety of tools including Photoshop and InVision.

Slant, San Diego, CA— UX/UI Designer

Mobile Application Startup for Civic Engagement

JUNE 2018 - PRESENT

- Conduct expert reviews and competitive analyses of products operating in the same space.
- Create personas, storyboards, and journey maps to generate empathy and identify pain points in the user's experience.
- Continuously iterate and test prototypes of varying levels of fidelity using tools such as Adobe XD, InVision, and UserTesting.

Global Ties, La Jolla, CA—UX Design & Development

Responsive Web Application for San Diego Non-Profit

JANUARY 2018 - MARCH 2018

- Managed a team of 8 to design and build a classification tool and visual aid for a nonprofit client, Center for Community Health, which increased productivity by 20%.
- Utilized HTML, CSS, and JS to develop the front-end of the application.

CHEAR, La Jolla, CA—Research Assistant

Behavioral Psychology Lab

NOVEMBER 2017 - PRESENT

- Administer assessments including psychophysiological measurements such as EMG, GSR, and ECG.
- Closely observe participants behaviors during assessments.
- Worked to quickly build rapport with participants to create a comfortable environment.
